

Peer Review of Methodology – Proposal Submitted for Human Ethics Approval

Peer Reviewer Response

CI Name _____

Reviewed by _____

Project Title _____

The aims of the research are clearly identified

The research proposal is well designed and methodologically sound

The research proposal is supported by an appropriate literature review or justification

The research procedures are appropriate to the aims of the research

The proposed study sample is appropriate

If the research is conducted according to the protocol, it is expected to yield valid and useful data

The researcher(s) has the necessary expertise to conduct the research and perform the procedures/techniques required by the research

Where relevant, all methodological issues have been resolved to the satisfaction of the peer reviewer(s)

Further comments if required
