

# Honorary Academic Titles and Visiting Appointments Policy

## Section 1 - Introduction

### Purpose

(1) This policy sets out the conditions for conferral of honorary academic titles and the benefits afforded to and obligations of honorary academic title holders and visiting appointments to the University of Newcastle (the University).

(2) This document should be read in conjunction with the [Honorary Academic Titles and Visiting Appointments Procedure](#).

### Background

(3) The provision of honorary appointments acknowledges the extensive contribution to teaching, research, academic programs, and professional leadership that individuals who are not employed by the University make to its everyday operation. The University confers an honorary academic title on appointees to recognise the existence of a collaborative relationship.

(4) The University may award an honorary title to an individual in recognition of their collaboration and contribution to research, teaching, and/or service and engagement with the University.

### Scope

(5) The following categories of honorary appointments are covered by this Policy:

- a. Conjoint;
- b. Clinical;
- c. Adjunct;

- a. recognises the benefit the University receives from contributions to research, teaching and/or service and engagement on an honorary basis;
- b. provides for the award of honorary titles in acknowledgment of such contributions; and
- c. describes the privileges and obligations attaching to such titles.

## Section 3 - Policy Principles

(8) The award of an honorary academic title is not an appointment to a position and does not establish any employment relationship between the University and the individual. The appointment does not entitle the individual to any salary payments.

(9) An honorary appointment will be paused when the individual accepts an offer of paid employment with the University. The honorary appointment may be reinstated following the cessation of the paid employment, for the remaining period of the honorary appointment.

(10) Honorary title holders will not receive remuneration for the activities associated with the award of their title except where the payment for activities is temporary and in addition to the normal expectations of a title holder as stipulated in their letter of appointment. In such circumstances, the proposed remuneration must be approved by the relevant delegate.

(11) Associated costs will be met by the School to which the honorary appointment is attached.

(12) Recommendations for the level of an honorary academic title must be consistent with the Criteria for Assessing the Level of Honorary Academic Appointment.

(13) The conferral of an honorary academic title or visiting appointment title will be outlined in a letter of appointment to the recipient. The University will identify specific resources and/or facilities that will be made available to support the title holders contributions in the letter of appointment.

(14) The use of the title cannot commence until the letter of appointment has been issued, signed and returned to the University.

(15) The use of any honorary academic title is contingent upon the individual contributions to research, teaching and/or service and engagement at the University, as outlined in the letter of appointment.

(16) The title holder must comply with the University's [Staff Code of Conduct](#) and all relevant University, rules, policies and procedures ("University policies") whilst undertaking activities relating to their honorary academic appointment.

(17) The title holder is responsible to the relevant Head of School (or equivalent).

(18) Research outputs of the honorary title holder must include the University of Newcastle by-line.

(19) An Honorary appointment may be renewed for additional terms on a triennial basis.

### Withdrawal of an Honorary Academic Title

(20) Honorary academic titles are conferred at the discretion of the University. An honorary academic appointment, and any associated conditions and privileges may be withdrawn at any time at the University's discretion.

## Merit and Equity
