

Recruitment, Selection and Appointment of Research Staff from Non-Operating Funds Procedure

Section 1 - Introduction

(1) This procedure outlines the University's processes for the recruitment, selection and appointment of research staff for a research project from Non-operating funds for a period of 12 months to 3 years.

(2) Research projects have unique criteria and conditions attached to funding sources and may require a recruitment, selection and appointment process that differs from that which applies to the appointment of a staff member supported by operating funds.

(3) For the appointment of a known and capable candidate for a period of less than 12 months a direct appointment can be made as outlined in the [Talent, Recruitment and Appointment Procedure](#).

Section 2 - Procedure

Finance and Funding

(4) The Chief Investigator will ensure compliance with the grant funding guidelines and conditions of the award. This includes verifying that staff are permitted to be employed using funds awarded from the grant.

(5) The Chief Investigator will ensure that there is sufficient funding to cover any proposed appointee's employment period, on-costs and any accrued annual leave.

(6) The Chief Investigator will receive endorsement from the Finance Business Partner prior to commencing any Direct appointment or Competitive recruitment to confirm there is sufficient funding for the proposed role.

Recruitment strategy

(7) Where a researcher is named in a grant application, that individual may be automatically appointed to a relevant position as outlined in the grant.

(8) Where the Chief Investigator has identified one or more potential candidates, Direct appointment will apply unless the Chief Investigator chooses to use Competitive recruitment.

(9) Situations in which potential candidates may be readily identified may occur in areas of research where existing staff or recent PhD graduates have demonstrated relevant skills and knowledge in the area.

(10) A candidate may also be readily identified if the research is so specialised that there would only be a small number of potential candidates either nationally or globally.

(11) Where no potential candidates have been identified, Competitive recruitment will be adopted.

Direct Appointment

(12) An Appointment Committee will be convened, comprising the following membership:

(15) The Chief Investigator will complete a reference check from at least 2 appropriate referees, preferably 3 or more.

(17) In accordance with the University's [Conflict of Interest policy](#), if an Appointment Committee member has a direct or personal interest in a recruitment process they must declare such interest to the Chief Investigator as soon as the candidate's identity becomes known to them. This will mean a declaration of any financial, family or other close personal relationships with any candidate for the position.

(18) The Chief Investigator, in consultation with the HRServices Recruitment Team, will determine if there is an actual conflict of interest, or if there could be a perceived conflict of interest. If it is determined that there is a conflict, the Appointment Committee member will be asked to stand down from the Appointment Committee. In the case of the Chief Investigator declaring a potential conflict, the Manager, Recruitment and Support Services will determine whether there is a conflict of interest or a perceived conflict of interest.

(19) Appointment Committee members will observe confidentiality in regard to all aspects of appointment and will not disclose any details of candidates or discuss aspects of the appointment process with any person within or external to the University, other than a fellow Committee member or member of HRServices.
